

### About Our Agency Fees:

(Surrogacy)

At Surrogacy International, Inc., we believe that parenthood is a choice of incredible responsibility and tremendous pride that everyone should be able to experience. We understand that deciding to move forward with a surrogacy agency is a big commitment, both emotionally and financially. While many of the costs and fees associated with surrogacy are simply out of our hands, we do strive to keep our own agency fees reasonable and competitive so that all of our intended parents may have the chance to experience the gift of children.

Our agency fees are broken into 5 installments for the convenience and ease of our intended parents. Furthermore, the initial payment of \$3,000 is the only non-refundable fee due upon the initiation of services. Subsequent payments will only be assessed as you decide you are ready to move forward with the next steps in your parenting journey.

While some associated fees may apply (including, but not limited to, travel time and expenses, additional fees for international documentation and postage, etc.), we remain committed to building new family trees both domestic and abroad.

Surrogacy International, Inc. offers both surrogacy and egg donation services. Should you decide to retain us for both services, reduced fees may apply. Furthermore, if you have already found a surrogate and/or egg donor, and are not in need of full agency services, our attorneys may still provide you with independent legal counsel. Further inquiries into these situations can be directed to our office.
