

## General Intended Parent Fee Schedule\*

*\*Please note that all fees and rates listed here reflect averages seen in the field. They are estimates only and are subject to change without notification. Final compensation rates and terms for the Surrogate can only be legally determined in a Gestational Surrogacy (IVF) Contract between the Surrogate, Intended Parent(s), and their respective attorneys. Surrogate rates are considered negotiable. Many factors may alter these estimates, including, but not limited to experience, differing negotiation rates, third party professional fees, legal fees, etc.*

### **For Surrogacy:**

<b>Surrogate Set Expenses</b>	<b>(\$36,000 - \$61,250)</b>
